# Elegance on track

# MOVE IT 10 system

**EN** MOVE IT 10 is a particularly slim track system. The dimmable low-voltage track, available as a recessed, surface-mounted, suspended or pole version, is impressive thanks to its unusually slender cross-section. Both the round and square forms have a clear width of only 10 mm. MOVE IT 10's design is minimalistic. The insets' adapter are fully hidden in the track. The tracks are available in black, white and chrome (standard for the round version). They are connected by Corner or Curve elements for an edgy or softly rounded appearance. Extend MOVE IT 10 with various linear or design-oriented insets for maximum planning freedom for your interior concept.

**DE** Eine besonders schlanke Stromschiene – das ist MOVE IT 10. Die dimmbare Niedervolt-Stromschiene, als Einbau-, Anbau-, abgehängte oder Pole Variante verfügbar, besticht durch ihren ungewöhnlich schlanken Querschnitt: Sowohl in runder als auch in eckiger Form misst ihre lichte Breite lediglich 10 mm. Das minimalistische Design setzt sich auch in den Adaptern fort, die vollständig in den Schienen verschwinden. Die Schienen sind in den Farben Schwarz, Weiß und Chrom (bei der runden Variante) erhältlich. Verbunden werden sie durch Corner-, oder Curve-Elemente zu wahlweise klaren Ecken oder weichen Rundungen. MOVE IT 10 kann mit verschiedenen linearen oder designorientierten Einsätzen erweitert werden – für größte Freiheit bei der Planung Ihres Interior Konzepts.

<b>Types</b>

## Mounting options

**EN** Depending on the desired appearance and installation, the 48V track system is available as a trimless recessed-mounted, surface-mounted, suspended or pole version.

**DE** Je nach gewünschter Erscheinung und Montage ist das 48V-Stromschienensystem als randlose Einbau-, Anbau-, abgehängte oder als Pole Variante verfügbar.

## Create individual arrangements

**EN** Let your creativity run wild and arrange MOVE IT 10 at will. Special Curve and Corner elements enable the straight tracks to be connected to form harmonious curves or precise corners. Since all elements fit together, you can configure your ideal bespoke system.

**DE** Lassen Sie Ihrer Kreativität freien Lauf und arrangieren Sie MOVE IT 10 nach Ihren Vorstellungen. Durch spezielle Curve- und Corner-Elemente lassen sich die geradlinigen Schienen zu harmonischen Kurven oder präzisen Ecken verbinden. Da alle Elemente zueinander passen, können Sie das System individuell nach Wunsch und verfügbarem Platz konfigurieren.

## Track shapes

**EN** In both the round and square form, the track opens options for flexible application. Their track diameter is only 29mm, presenting a reduced and sleek appearance. Many insets offer an optional flush adapter to create an even, visually calm ceiling appearance.

**DE** In runder und eckiger Form bietet die Stromschiene flexible Einsatzmöglichkeiten. Ihr Durchmesser misst bis zu 29 mm – für eine reduzierte und edle Optik. Viele Insets verfügen über einen bündigen Adapter, wodurch ein ebenes, optisch ruhiges Deckenbild entsteht.

## Colour variety

**EN** The tracks are available in the colours black and white, delivering discreet elegance. The round track comes additionally in chrome. In addition, for some insets you have the choice between the trend colours chrome, rose gold, gun metal, brushed aluminium and brushed brass.

**DE** Dezente Eleganz: Die Stromschiene sind in den Farben Schwarz und Weiß erhältlich. Die runde Schiene ist zudem in der Farbe Chrom verfügbar. Zusätzlich haben Sie bei einigen Insets die Wahl zwischen den Trendfarben Chrom, Roségold, Gun Metal, Aluminium gebürstet und Messing gebürstet.

## Mounting variety

**EN** With precise corners or harmonious curves, the MOVE IT 10 system sets no limits to creativity. Elegant insets for different applications make the track system even more flexible.

**DE** Egal ob mit präzisen Ecken oder harmonischen Kurven, das MOVE IT 10 System setzt der Kreativität keine Grenzen. Elegante Insets für verschiedene Anwendungen machen das Schienensystem noch flexibler.

## Connector overview

**EN** A large selection of different connectors – in L-, T-, X-shape – provides even more flexibility. With the Ceiling to Wall Connector, roof slopes with different angles can also be realised.

**DE** Für noch mehr Flexibilität sorgt eine große Auswahl an unterschiedlichen Verbindern – in L-, T-, X-Form. Mit dem Ceiling to Wall Connector lassen sich zudem Dachschrägen mit verschiedenen Winkeln realisieren.

### 5 Flex Connector

### 6 Ceiling to Wall Connector

### 7 Level Connector

### 8 Pass Through Connector

**EN** With the Level Connector, two tracks that are placed on top of each other can now be mechanically and electrically connected to each other. This creates new application possibilities.

**DE** Mit dem Level Connector können nun zwei Schienen, die übereinander geführt werden, mechanisch und elektrisch miteinander verbunden werden. Dadurch entstehen spannende neue Anwendungsmöglichkeiten.

**EN** With the Pass Through Connector (patent pending) the direct and indirect light insets in the H-track can be electrically connected to each other.

**DE** Mit dem, zum Patent angemeldeten, Pass Through Connector können die direkten und indirekten Lichteinsätze in der H-Schiene elektrisch miteinander verbunden werden.

## MOVE IT 10 system

recessed trimless/surface

**EN** Thin extruded aluminium profile with 16 mm (trimless) or 11 mm (surface) height and 10 mm width groove; optionally for trimless installation in plasterboard ceilings (wall or ceiling mounting) with 12.5 mm ceiling thickness; MOVE IT 10 trimless profile with processing protection against penetration of filler; or for wall-/ceiling surface mounting; designed for continuous lighting systems; flexible system design through L, T or X connectors or by means of FLEX or LEVEL connectors; with integrated power track profile for take off of supply voltage and DALI-2 signal; surface anodised or powder coated; insets can be installed flexibly and without tools by means of clip mount

**DE** Niedriges Aluminiumstrangpressprofil mit 16 mm (trimless) bzw. 11 mm (surface) Höhe und 10 mm Fugenbreite; wahlweise für den randlosen Einbau in Gipskartondecken (Wand- oder Deckenmontage) mit 12,5 mm Deckenstärke; MOVE IT 10 trimless Profil mit Verarbeitungsschutz gegen Eintrinken von Spachtelmasse; oder für Wand-/Deckenanbaumontage; ausgelegt für durchgehende Lichtsysteme; flexibler Systemaufbau durch L-, T- oder X-Verbinder bzw. mittels FLEX- oder LEVEL-Verbinder; mit integriertem Stromschienenprofil für Abnahme von Versorgungsspannung und DALI-2 Signal; Oberfläche eloxiert bzw. pulverbeschichtet; flexible und werkzeuglose Montage der Einsätze durch Clipverschluss

# Perfect allrounder

## TUBO/SETA 60 CONEX system

**EN** TUBO and SETA make a name for themselves as uniform and minimalist lighting system luminaires that can be flexibly joined by various connecting elements. The luminaires are available for wall and ceiling mounting, as well as in suspended pendant versions. Thanks to their opal cover, the TUBO system luminaire delivers uniform ambient illumination and the characteristic beam angle of up to 340° ensures a soft ceiling illumination that helps build a pleasant room atmosphere. SETA system luminaire's reflectors are particularly noteworthy and have been optimised for office spaces and designed for working at screens. The indirect light component creates a pleasant, homogeneous ceiling illumination for every work area. The CONEX connector (patent pending) grants the system a high degree of flexibility. As a mechanical and electrical L-, T-, and X-shaped connecting element, it allows implementation of geometric shapes over several levels.

**DE** Als Systemleuchten punkten TUBO und SETA als einheitliche und minimalistische Lichtsysteme, die durch verschiedene Verbindungselemente flexibel aneinandergereiht werden können. Die Leuchten sind für Wand- und Deckenmontage als auch in abgehängten Pendelvarianten erhältlich. Durch das Opal-Cover sorgt die TUBO Systemleuchte für eine gleichmäßige Grundausleuchtung und der charakteristische Abstrahlwinkel von bis zu 340° sorgt für eine leichte Deckenaufhellung, welche eine positive Raumatmosphäre unterstützt. Besonders hervorzuheben sind die eigens für Büroräumlichkeiten optimierten Reflektoren der SETA Systemleuchte, die speziell für Bildschirmarbeit konzipiert wurde. Durch den Indirektlichtanteil entsteht eine für jeden Arbeitsbereich angenehme, homogene Deckenaufhellung. Der zum Patent angemeldete CONEX Verbinder verleiht dem System hohe Flexibilität. Als mechanisches und elektrisches Verbindungselement in L-, T- und X-Form lassen sich geometrische Formen über mehrere Ebenen realisieren.

## Connector CONEX

**EN** The patent pending CONEX connector system for the TUBO 60 system now offers even more design freedom. With the flexible lighting system, geometric shapes or exciting light sculptures can be created. Thanks to the mechanical and electrical connectors in L, T and X shapes, a visually uniform lighting system is created. In combination with the SETA system, various areas of application are possible - whether as corridor, office luminaire or visual guidance system.

**DE** Das zum Patent angemeldete CONEX Verbindungssystem für das TUBO 60 System bietet nun noch mehr Gestaltungsfreiraum. Mit dem flexiblen Beleuchtungssystem lassen sich geometrische Formen oder spannende Lichtskulpturen kreieren. Dank der mechanischen und elektrischen Verbindungselemente in L-, T- und X-Form entsteht ein optisch einheitliches Lichtsystem. In Kombination mit dem SETA System erschließen sich verschiedene Anwendungsbereiche – ob als Korridor-, Office-Leuchte oder visuelles Leitsystem.

## Easy mounting

**EN** CONEX system luminaires are electrically and mechanically connected by a simple plug-in connection. This makes the installation of a complex lighting system simple, quick, and straightforward.

**DE** CONEX Systemleuchten werden durch eine simple Steckverbindung elektrisch und mechanisch verbunden. Dadurch ist die Montage eines komplexen Lichtsystems denkbar einfach, rasch und unkompliziert durchführbar.

## 340° light distribution

**EN** With its 340° beam pattern and opal cover, TUBO System delivers homogeneous illumination as well as slight ceiling brightening. This makes the system luminaire perfect for places where pleasant ambient lighting is desired, such as reception areas, corridors, or foyers.

**DE** Durch ihre 340° Abstrahlcharakteristik und Opal-Abdeckung erzielt TUBO System eine homogene Beleuchtung sowie eine leichte Deckenaufhellung. Dadurch ist die Systemleuchte perfekt geeignet für Orte, an denen eine angenehme Grundausleuchtung gewünscht ist, wie Empfangsbereiche, Flure oder Foyers.

## Work-friendly light

**EN** As an office luminaire, SETA guarantees illumination that is compliant with workplace standards (up to  $UGR \leq 16$ ). Custom glare-free reflectors and the selected use of blind covers direct the light precisely to the work surface and reduce reflections. The direct/indirect version comes with special lens technology that distributes the indirect light component homogeneously and broadly towards the ceiling.

**DE** SETA als Office-Leuchte garantiert eine normgerechte Ausleuchtung von Arbeitsplätzen (bis zu  $UGR \leq 16$ ). Speziell entblendete Reflektoren und der gezielte Einsatz von Blind-Covers richten das Licht zielgenau auf die Arbeitsfläche und reduzieren Spiegelungen. Bei der direkt/indirekt Variante, verteilt eine spezielle Linsentechnik den sehr breit ausstrahlenden Indirektlichtanteil homogen an der Decke.

## Advanced sensor technology

**EN** Special sensors expand the product family SETA with smart lighting control and collection of insightful data. The ESSENTIAL sensor enables dynamic adjustment of the lighting to ambient brightness and room activity. The SENSE version also measures values such as temperature, air quality, humidity and noise level. These data not only provide important insights into the ambient conditions and use of rooms, but also support energy savings in the long term.

**DE** Spezielle Sensoren erweitern die Produktfamilie SETA um smarte Lichtsteuerung. Der ESSENTIAL-Sensor ermöglicht die dynamische Anpassung der Beleuchtung an Umgebungshelligkeit und Raumaktivität. Die SENSE-Variante misst außerdem Werte wie Temperatur, Luftqualität, Luftfeuchtigkeit und Geräuschpegel. Diese Daten liefern nicht nur wichtige Erkenntnisse über die Umgebungsbedingungen und Nutzung von Räumen, sondern unterstützen langfristig Energieeinsparungen.

## Indirect version

**EN** SETA indirect stands for the minimalist design of the product family and expands it with an indirect luminaire that provides homogeneous ceiling lighting. This creates a pleasant room feeling and the possibility to illuminate ceiling patterns harmoniously.

**DE** Die SETA indirect steht für das minimalistische Design der Produktfamilie und erweitert diese um eine Indirekt-Leuchte, welche für eine homogene Deckenaufhellung sorgt. So entsteht ein angenehmes Raumgefühl und die Möglichkeit, Deckenmuster harmonisch zu beleuchten.

reddot winner 2023

## TUBO/SETA 60 CONEX system

surface / suspended

**EN** Cylindrical lighting system in aluminium; powder coated; ceiling surface mounting or suspended mounting; height adjustment without tools; with transparent feeder cable; electrical connection of the luminaires via plug/socket system; optionally connectors (L-, T- or X-shape); luminaire connection rotatable around its own axis, which means that any spatial angle can be realized; optionally cylindrical HPO (High Performance Opal) cover or high gloss reflector with faceted design; light control via high quality lens system for homogeneous illumination (HPO); direct, indirect or direct / indirect light distribution (reflector); indirect light component with integrated PCboards and high quality lens system for homog. ceiling illumination, separately controllable; energy-eff. LEDs - very good colour rendering

**DE** Zylindrisches Lichtsystem aus Aluminium; pulverbeschichtet; Deckenanbau oder abgehängte Montage; werkzeuglose Höhenverstellung; inkl. transp. Einspeiseleitung; elektrische Verbindung der Leuchten mittels Buchse/Stecker System; optionale Verbinder (L-, T- oder X-Form); Leuchtenverbindung um eigene Achse drehbar, dadurch beliebige Raumwinkel realisierbar; wahlweise zylindr. HPO (High Performance Opal) Abdeckung oder hochglänzender Reflektor mit Facettenoptik; Lichtlenkung mittels hochwertiger Linsenoptik für homogene Ausleuchtung (HPO); direkte, indirekte bzw. direkt / indirekte Abstrahlcharakteristik (Reflektor); Indirektlichtanteil mit eigenen Platinen u. hochwertiger Linsenoptik für homog. Deckenaufhellung, separat steuerbar; energieeff. LEDs - sehr gute Farbwiedergabe

# Discreet perfection

# MITA

**EN** MITA combines high performance with a slim design language and its wide range of applications is impressive. The product family is available as recessed or surface-mounted luminaire in a round or square design as well as suspended version. All the versions of the luminaire have special reflectors for the best screen-compatible work lighting – perfect for use in offices or meeting rooms. The product family is available in the light colours 3000 K, 4000 K, or Tunable White. Optionally, the luminaire can be equipped with a presence and brightness sensor.

**DE** MITA vereint Leistungsstärke mit schlanker Formensprache und besticht durch vielfältige Einsatzmöglichkeiten. Die Produktfamilie ist als Einbau- oder Anbauleuchte in runder oder quadratischer Ausführung sowie als abgehängte Variante verfügbar. In allen Ausführungen verfügt die Leuchte über spezielle Reflektoren für bestes, bildschirmtaugliches Arbeitslicht – perfekt für den Einsatz in Büros oder Meetingräumen. Die Produktfamilie ist in den Lichtfarben 3000 K, 4000 K oder als Tunable White Option erhältlich. Optional kann die Leuchte mit einem Anwesenheits- und Helligkeitssensor ausgestattet werden.

## Light distributions

## Variety

**EN** MITA is characterised by an elegant design language with maximum efficiency and versatile application possibilities. The MITA product family is available as a recessed or surface-mounted luminaire in round and square versions, as well as a suspended variant. For a uniform ceiling appearance, the cover can simply be attached magnetically and is available as a reflector or opal cover.

**DE** MITA zeugt von eleganter Formensprache bei höchster Effizienz und besticht darüber hinaus durch ihre vielseitigen Einsatzmöglichkeiten. Die MITA Produktfamilie ist als Einbau- oder Anbauleuchte in runder sowie quadratischer Ausführung oder als abgehängte Variante erhältlich. Zudem ist MITA als Reflektor- oder Opal-Cover-Variante verfügbar. Für ein einheitliches Deckenbild kann die Abdeckung einfach magnetisch befestigt werden.

## Advanced sensor technology

**EN** Special sensors expand the MITA product family with smart lighting control and collection of insightful data. The ESSENTIAL sensor enables dynamic adjustment of the lighting to ambient brightness and room activity. The SENSE sensor also measures values such as temperature, air quality, humidity and noise level. These data not only provide important insights into the ambient conditions and use of rooms, but also support energy savings in the long term.

**DE** Spezielle Sensoren erweitern die MITA Produktfamilie um smarte Lichtsteuerung. Der ESSENTIAL Sensor ermöglicht die dynamische Anpassung der Beleuchtung an Umgebungshelligkeit und Raumaktivität. Der SENSE Sensor misst außerdem Werte wie Temperatur, Luftqualität, Luftfeuchtigkeit und Geräuschpegel. Diese Daten liefern nicht nur wichtige Erkenntnisse über die Umgebungsbedingungen und Nutzung von Räumen, sondern unterstützen langfristig Energieeinsparungen.

## Light distribution

**EN** As an office luminaire, MITA guarantees the best possible working light. Special, glare-reduced reflectors direct the light precisely onto the work surface and reduce reflections. The opal cover ensures homogeneous room illumination. With the direct/indirect power version of the suspended luminaire, the indirect light component has a very wide beam and distributes the light evenly across the ceiling. The direct/indirect soft light component of the surface-mounted version produces a gentle and light ceiling illumination, making the luminaire appear to almost float.

**DE** Als Office-Leuchte garantiert MITA bestes Arbeitslicht. Speziell entblendete Reflektoren richten das Licht zielgenau auf die Arbeitsfläche und reduzieren Spiegelungen. Mit der Opal Abdeckung ist eine homogene Raumausleuchtung gegeben. Bei der direkt/indirekt power Variante der abgehängten Leuchte ist der Indirektlichtanteil sehr breit ausstrahlend und verteilt das Licht gleichmäßig an der Decke. Der direkt/indirekt soft Lichtanteil der Anbauvariante bewirkt eine sanfte und leichte Deckenaufhellung und lässt die Leuchte optisch beinahe schweben.

## Discreet accentuation

**EN** MITA sets discreet accents for a pleasant room atmosphere. The product is available in black or white, and with or without a cover. The magnetic cover attaches easily and the indirect component provides gentle and light ceiling brightening.

**DE** MITA ceiling setzt diskrete Akzente für eine angenehme Raumatmosfera. Sie ist erhältlich in Schwarz oder Weiß und wahlweise mit Abdeckung. Das Cover ist einfach magnetisch zu befestigen. Der Indirektanteil bewirkt eine sanfte und leichte Deckenaufhellung und lässt die Leuchte optisch beinahe schweben.

## MITA circle

ceiling

**EN** Ring shaped luminaire housing in die-cast aluminium; extremely slim design; surface powder coated; luminaire housing set away from ceiling; electronic operating unit installed in the surface mounted housing; surface mounted housing aligned from the ring to the center; optional: blind cover to cover the cut-out, held by magnet, available as an accessory; high-gloss reflector with faceted design; HPO (High Performance Opal) cover for uniform illumination; either with direct or direct/indirect light distribution; energy-efficient LEDs with very good colour rendering

**DE** Ringförmiger Leuchtenkörper aus Aluminiumdruckguss; extrem schlanke Bauform; Oberfläche pulverbeschichtet; Leuchtenkörper von der Decke abgesetzt; elektronisches Betriebsgerät im Anbauehäuse verbaut; Anbauehäuse vom Ring ins Zentrum ausgerichtet; optional: Blindabdeckung, mittels Magnet im Innenausschnitt befestigt, als Zubehör erhältlich; hochglänzender Reflektor mit Facettenoptik; HPO (High Performance Opal) Abdeckung für homogene Ausleuchtung; wahlweise mit direkter bzw. direkt/indirekter Abstrahlcharakteristik; energieeffiziente LEDs mit sehr guter Farbwiedergabe

# Hidden talent

# SPIO

**EN** Round, recessed SPIO spotlights bring special lighting to your rooms. The luminaire provides an impressive lighting effect, trimless or with a trim. The housing can be painted over, allowing the spotlight to blend seamlessly into the ceiling. The small light aperture of 10 mm makes the SPIO itself appear almost hidden – but the equally effective and calm overall impression is anything but invisible. The round, recessed spotlight is available with beam angles of 35° or 44° and can be rotated 360° in the housing and pivoted 30° in all directions. In addition, SPIO 20 is available with Wallwasher Floor optic, which creates a uniform wall illumination. These different lighting options mean that versatile designs for interiors are possible. SPIO is available in the light colours 2700 K, 3000 K, and 4000 K.

**DE** Mit den runden SPIO Einbaustrahlern bringen Sie eine besondere Beleuchtung in Ihre Räume. Die Leuchte sorgt für eine beeindruckende Lichtwirkung, randlos oder mit umlaufendem Rand. Das Gehäuse kann einfach überstrichen werden, wodurch sich der Strahler nahtlos ins Deckenbild einfügt. Die geringe Lichtaustrittsöffnung von 10 mm lässt SPIO selbst beinahe verborgen erscheinen – der effektvolle und ruhige Gesamteindruck ist jedoch alles andere als unsichtbar. Der runde Einbau-Spot ist mit den Ausstrahlwinkel von 35° oder 44° verfügbar und ist im Gehäuse um 360° drehbar und in alle Richtungen 30° schwenkbar. Zudem ist SPIO 20 mit Wallwasher Floor Optik verfügbar, wodurch eine gleichmäßige Wandaufhellung entsteht. Dadurch ergibt sich eine vielseitige Raumgestaltung mit unterschiedlichen Beleuchtungsmöglichkeiten. SPIO ist in den Lichtfarben 2700 K, 3000 K und 4000 K erhältlich.

spotlight

## High-efficiency lens

**EN** Large light output – almost unnoticed. SPIO has a special LFO lens, which is mounted at an exact distance from the light-emission surface, thus ensuring that no light beam appears on the inner surface of the housing. This reduces the light-emission surface, and SPIO illuminates the room almost unnoticed.

**DE** Großer Lichtoutput – nahezu unbemerkt. SPIO verfügt über eine spezielle LFO Linse, welche in einem exakten Abstand zur Lichtaustrittsfläche montiert wird. Dieser ist so bemessen, dass kein Lichtstrahl an der Innenfläche des Gehäuses auftritt. Dadurch wird die Lichtaustrittsfläche reduziert und SPIO beleuchtet den Raum nahezu unbemerkt.

## Homogeneous appearance

**EN** SPIO is the right choice for a uniform ceiling appearance. Thanks to its extremely small light aperture of 10 mm, the recessed spotlight appears almost invisible. The effective lighting is rounded off by its minimalist design language.

**DE** Für ein einheitliches Deckenbild ist SPIO die richtige Wahl. Dank seiner ausgesprochen geringen Lichtaustrittsöffnung von 10 mm ist der Einbaustrahler beinahe unsichtbar. Die effektive Lichtwirkung wird abgerundet durch seine minimalistische Formensprache.

## Light distribution

**EN** Despite its small emission surface, the recessed spotlight achieves a beam angle of either 35° or 44°. SPIO 20 is also available with Wallwasher Floor optic, which creates a homogeneous wall brightening effect. SPIO thus provides glare-free light and skilfully stages objects.

**DE** Trotz seiner geringen Austrittsfläche erreicht der Einbaustrahler einen Ausstrahlwinkel von wahlweise 35° oder 44°. SPIO 20 ist zudem mit Wallwasher Floor Optik erhältlich, wodurch eine homogene Wandaufhellung entsteht. Dadurch gibt SPIO blendfreies Licht und setzt Objekte gekonnt in Szene.

## Precise light adjustment

**EN** The adjustable version of SPIO 60, patent pending, can be moved in all directions thanks to a magnetic plate. The spotlight can thus both be rotated 360° and pivoted up to 30° in all directions. As a result, it offers the greatest flexibility in directing and guiding light exactly where it is desired.

**DE** Die zum Patent angemeldete adjustable Version von SPIO 60 kann aufgrund eines magnetischen Strahlerkopfes in alle Richtungen bewegt werden. Der Strahler kann zudem nicht nur um 360° gedreht, sondern auch um bis zu 30° in alle Richtungen geschwenkt werden. Dadurch bietet er größte Flexibilität in der Ausrichtung und Lenkung des Lichtes genau dorthin, wo es gewünscht ist.

## Smooth and invisible

**EN** The trimless SPIO 60 version can easily be maintained and adjusted thanks to its magnetic cover. The spotlight is completely fitted into a plasterboard ceiling. The recessed housing and ceiling can subsequently be painted over. The spots thus appear "invisible", creating a homogeneous, effective overall impression.

**DE** Die randlose Variante von SPIO 60 ist durch die magnetische Abdeckplatte einfach zu warten und zu adjustieren. Der Strahler wird vollkommen in einer Gipskartondecke verbaut. Anschließend kann das Einbaugeschäule gemeinsam mit der Zimmerdecke überstrichen werden. Die Spots wirken dadurch „unsichtbar“ – es entsteht ein homogener wirkungsvoller Gesamteindruck.

## SPIO 20

recessed

**EN** Round recessed spotlight in die-cast aluminium; installation without tools in mounting set with ball catch system or using snap spring closure; special mounting tool for easy installation of the trimless housing available as an accessory; for trimless installation in plasterboard ceilings; paintable light inset; shadow joint between light inset and mounting set optionally fillable; or with trim; with optional high quality lens system with precise radiation characteristic; or high quality, aluminium, vapour deposition coated reflector with faceted design; precise radiation characteristics with different beam angles; uncluttered ceiling look through recessed lighting level; reduced light-emitting surface - only  $\varnothing 10$  mm (DOWNLIGHT) or  $\varnothing 13$  mm (WALLWASHER/FLOOR); no multiple shadows; energy-eff. LEDs - very good colour rendering

**DE** Runder Einbaustrahler aus Aluminiumdruckguss; werkzeuglose Montage im Montageset durch Kugelschnappsystem bzw. Schnappfederverschluss; spezielles Montagewerkzeug zur einfachen Installation des randlosen Gehäuses als Zubehör erhältlich; für randlosen Einbau in Gipskartondecken; überstreichbarer Lichteinsatz; Schattenfuge zwischen Lichteinsatz und Montageset optional verspachtelbar; oder mit umlaufendem Rand; wahlweise mit hochwertiger Linsenoptik mit präziser Abstrahlcharakteristik; oder hochwertiger, aluminiumbedampfter Reflektor mit Facettenoptik; präzise Abstrahlcharakteristik mit verschiedenen Ausstrahlwinkeln; ruhiges Deckenbild durch zurückversetzte Leuchtenebene; reduzierte Lichtaustrittsfläche - nur  $\varnothing 10$  mm (DOWNLIGHT) bzw.  $\varnothing 13$  mm (WALLWASHER/FLOOR); keine Mehrfachschatten; energieeff. # SQUADRO

**EN** SQUADRO is a track-mounted and recessed spotlight, in a two-lamp single- or double-sided version, for the retail sector that bundles six essential retail requirements in one luminaire. Free-form reflectors with faceted optics make a polished presentation of goods possible. These reflectors direct the light precisely into shelves or aisle zones. Directed light creates a modelling effect on the products and delivers attractive staging. Swivelling light modules illuminate specific shelf levels or billboards while providing plenty of basic lighting. SQUADRO spotlights are completely glare-free, both transversely and longitudinally. They are highly efficient in their energy balance with an efficiency of over 90 %.

**DE** SQUADRO ist ein Stromschienen- und Einbaustrahler, in zweiflamiger einseitiger oder zweiseitiger Ausführung, für den Retailbereich, der sechs wichtige Retail-Anforderungen in einer Leuchte bündelt. Die brillante Präsentation von Waren gelingt dank Freiformflächenreflektoren mit Facettenoptik: Diese lenken das Licht punktgenau und hochpräzise in Regale oder Gangzonen. Gerichtetes Licht erzeugt einen Modelling-Effekt auf den Waren und schafft eine attraktive Inszenierung. Schwenkbare Lichtmodule beleuchten gezielt Regalebenen oder Plakatwände und sorgen gleichzeitig für ausreichende Grundbeleuchtung. SQUADRO Strahler sind dabei komplett quer- und längsentblendet und dennoch in ihrer Energiebilanz mit einem Wirkungsgrad von über 90% höchst effizient.

## 6-in-1 Lighting solution

**EN** SQUADRO combines all the advantages of traditional retail lighting solutions in one luminaire. The spotlights are transversely and longitudinally glare-free and direct the light precisely onto the goods – into the heights and depths of the shelves. This achieves a strong product presentation. Thanks to proper light distribution, no additional light source is required for basic lighting.

**DE** SQUADRO bündelt alle Vorteile klassischer Retail-Lichtlösungen in einer Leuchte. Die Strahler sind quer- und längsblendfrei und richten das Licht präzise auf die Ware – bis in die Höhen und Tiefen der Regale. Das erzielt eine starke Produktpräsentation. Dank guter Lichtverteilung ist keine zusätzliche Lichtquelle für die Grundbeleuchtung nötig.

**1** **EN** The highest illuminance is on the upper two presentation levels.

**DE** Die höchste Beleuchtungsstärke liegt auf den oberen beiden Präsentationsebenen.

**2** **EN** Highlights on premium goods create a brilliant staging.

**DE** Speziell exklusive Ware wird durch Glanzpunkte attraktiv inszeniert.

**3** **EN** Directed light creates accents on billboards and subjects.

**DE** Gerichtetes Licht erzeugt Akzente auf Werbetafeln und Sujets.

**4** **EN** The high depth effect gives food high colour contrasts and attractiveness.

**DE** Durch die hohe Tiefenwirkung erhalten Lebensmittel hohe Farbkontraste und Glanzpunkte.

**5** **EN** Due to longitudinal glare control, the lighting system is barely perceptible to the customer in the direction of the aisle.

**DE** Durch die Längsblendung ist die Beleuchtungsanlage für den Kunden in Gangrichtung kaum wahrnehmbar.

**6** **EN** Transverse glare control additionally prevents glare from any viewing direction.

**DE** Die Querblendung verhindert zusätzlich Blendung aus jeder Blickrichtung.

## Five versions

**EN** SQUADRO's five variants with diverse beam characteristics respond to different shop layouts and requirements. Perfect alignment ensures that minimal luminaires radiate as much light as possible onto the merchandise. SQUADRO adapts to the conditions and illuminates selectively and without scatter loss. All goods are thus attractively presented regardless of the size or interior design of the shop.

**DE** SQUADRO antwortet auf unterschiedliche Shop-Layouts und Anforderungen mit fünf Varianten mit verschiedenen Abstrahlcharakteristiken. Damit wenige Leuchten so viel Licht wie möglich auf die Ware strahlen, zählt die perfekte Ausrichtung. SQUADRO passt sich den Gegebenheiten an und beleuchtet punktuell und ohne Streuverluste. So werden alle Waren, unabhängig von Größe oder Innenarchitektur des Shops, ansprechend in Szene gesetzt.

Shelf / Wall Floor

## Unique reflector technology

**EN** Custom free-form reflectors ensure high-precision light control; each SQUADRO achieves an efficiency of over 90 per cent. The spotlights enjoy optimum glare control through the curved shape and secondary reflector technology.

**DE** Spezielle Freiflächenreflektoren sorgen für hochpräzise Lichtlenkung; jeder SQUADRO erzielt einen Wirkungsgrad von über 90 Prozent. Optimale Entblendung gelingt durch die gekrümmte Form und Sekundärreflektortechnik der Strahler.

## Effective lighting

**EN** Branches of the same chain often differ in their shop architecture. Shelf heights and aisle widths may vary from one location to another. The solution is step-adjustable light modules. The elements can be tilted from  $-15^\circ$  to  $+20^\circ$ . Each module can be tilted asymmetrically, allowing precise alignment and thus optimum light control.

**DE** Filialen derselben Kette unterscheiden sich häufig in der Shop-Architektur. Regalhöhen und Gangbreiten können sich je nach Standort unterscheiden. Die Lösung: stufenverstellbare Lichtmodule. Die Elemente sind von  $-15^\circ$  bis zu  $+20^\circ$  kippbar. Jedes Modul kann asymmetrisch geneigt werden und ermöglicht eine präzise Ausrichtung und damit eine optimale Lichtlenkung.

## SQUADRO wallwasher

recessed

**EN** Recessed ceiling spotlight in die cast aluminium in two different types (2 lamps or 2×2 lamps) and with 2 types of light modules (for shelf floor washer and wall floor washer); with trim; surface powder coated; installation without tools using snap spring closure; aisle spotlight with special, multi-free-form, facet effect surface reflectors for high precision light control; precise shelf and aisle zone lighting, optimum longitudinal glare control for high viewing comfort in the aisle zone, adjustable light modules; COB (Chip on Board) technology for maximum efficiency; efficient LEDs with very good colour rendering; IP40 protection glass available as an accessory

**DE** Deckeneinbaustrahler aus Aluminiumdruckguss in 2 verschiedenen Varianten (2-flammig bzw. 2×2-flammig) und mit 2 verschiedenen Lichtmodulen (für shelf floor washer und wall floor washer); mit umlaufendem Rand; Oberfläche pulverbeschichtet; werkzeuglose Montage mittels Schnappfederverschluss; Gangzonenstrahler mit speziellen Multi-Freiformflächenreflektoren mit Facettenoptik zur äußerst präzisen Lichtlenkung; punktgenaue Regal- und Gangzonenausleuchtung, optimale Längsentblendung für hohen Sehkomfort in der Gangzone, einstellbare Lichtmodule; COB (Chip on Board) Technologie für höchste Effizienz; effiziente LEDs mit sehr guter Farbwiedergabe; IP40-Schutzglas als Zubehör erhältlich

# In the spotlight

## BO intrack

**EN** Elegant and flexible – this is what characterises the BO track spotlight series. Several sizes and different beam angles offer enormous freedom in setting the scene. The Intrack versions are available as one-, two-, or three-flame spotlights. In addition, the spots can be rotated and pivoted at different angles, making BO an ideal spotlight for shops and staging areas. Different housing and light colours (2700 K, 3000 K, or 4000 K) offer flexibility in different architectural concepts and promise very good colour rendering of up to  $\text{CRI} \geq 95$  (2-SDCM).

**DE** Formschön und flexibel: das zeichnet die Strahlschienenstrahlerreihe BO aus. Durch mehrere Größen und verschiedene Ausstrahlwinkel haben Sie große Freiheit bei der Inszenierung. Die Intrack Varianten sind als ein-, zwei- oder dreiflammiger Strahler erhältlich. Zusätzlich sind die Spots in verschiedenen Winkeln dreh- und schwenkbar und machen BO zu einem idealen Strahler für Shops und Präsentationsflächen. Verschiedene Gehäuse- und Lichtfarben (2700 K, 3000 K oder 4000 K) bieten Flexibilität in unterschiedlichen architektonischen Konzepten und versprechen eine sehr gute Farbwiedergabe von bis zu  $\text{CRI} \geq 95$  (2-SDCM).

spotlight

## Matched proportions

**EN** Elegance in the right measure: All BO product family spotlights are characterised by their decorative and simple aesthetics. Thanks to their reduced design and precisely coordinated proportions, all BO models can be combined with each other.

**DE** Eleganz im richtigen Maß: Alle Strahler der BO Produktfamilie zeichnen sich durch ihre dekorative und schlichte Ästhetik aus. Dank ihres reduzierten Designs und den exakt aufeinander abgestimmten Proportionen sind sämtliche BO-Varianten miteinander kombinierbar.

## Colour variety

**EN** BO is available in standard white and black. For even more design freedom, additional colour options are available so that you can tailor BO to your individual project. Learn more about our colour palette at [xal.com/colours](http://xal.com/colours).

**DE** BO ist in den Standardfarben Weiß und Schwarz erhältlich. Für noch mehr Gestaltungsfreiraum stehen weitere Farbvarianten zur Verfügung – so können Sie BO Ihrem individuellen Projekt anpassen. Mehr zu unserer Farbpalette erfahren Sie auf [xal.com/colours](http://xal.com/colours).

[xal.com/colours](http://xal.com/colours)

## Variety

**EN** The BO Intrack versions are available as single-, double-, or triple-flame spotlights. The spotlight heads are available in three different diameters and different housing and light colours (2700 K, 3000 K, or 4000 K), offering even more flexibility for unique projects. The multi-flame version of the Inset requires only one control gear, which means that the individual spotlights are closer together. This makes these variants not only space-saving but also more cost-efficient.

**DE** Die BO Intrack Varianten sind als ein-, zwei- oder dreiflammiger Strahler erhältlich. Die Strahlerköpfe in drei unterschiedlichen Durchmessern und verschiedene Gehäuse- und Lichtfarben (2700 K, 3000 K oder 4000 K) bieten noch mehr Flexibilität für einzigartige Projekte. Die mehrflammige Ausführung des Insets benötigt lediglich ein Betriebsgerät, wodurch die einzelnen Strahler näher beieinander sitzen. Dadurch sind diese Varianten nicht nur platzsparend, sondern auch kosteneffizienter.

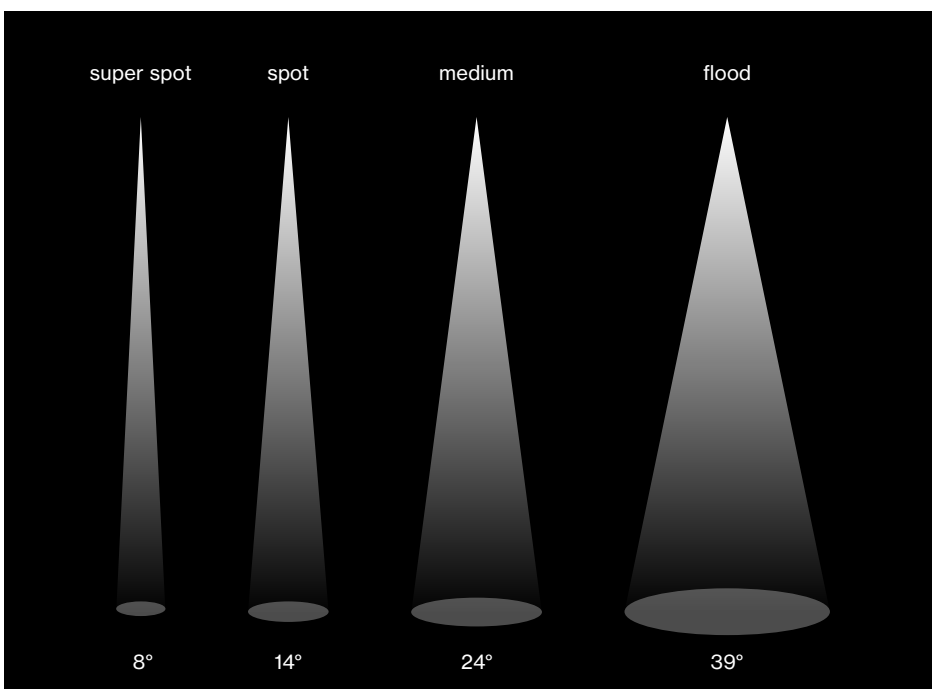

## Intrack

**EN** Flexible adjustment – easy installation: In the track version, BO combines different sizes and beam angles. Thus, ever new lighting scenarios can be implemented: from the selective presentation of goods and products to the staging of art objects and home accessories. The converter disappears elegantly into the track.

**DE** Flexible Adjustierung – einfache Montage: In der Track-Variante vereint BO unterschiedliche Größen und Ausstrahlwinkel. So lassen sich immer wieder neue Lichtinszenierungen realisieren: von der punktuellen Waren- und Produktpräsentation bis zur Inszenierung von Kunstobjekten und Wohnaccessoires. Der Konverter verschwindet elegant in der Schiene.

## Flexible adjustment

**EN** BO adapts to the requirements to ensure that objects are presented in the best possible light. The spotlight comes in different beam angles and is rotatable by at least 360°, as well as 90° tiltable.

**DE** Damit Objekte bestmöglich in Szene gesetzt sind, passt sich BO den Anforderungen an. Der Strahler ist nicht nur in verschiedenen Ausstrahlwinkeln verfügbar sondern auch um mindestens 360° dreh- sowie 90° schwenkbar.

# Universal expert

# VARO

**EN** As a track-mounted spotlight, VARO focuses on the essentials and can be used universally. It is available in two different sizes and, thanks to its 355° rotation and 90° swivelling capability, is extremely flexible in use. This flexibility is supported by the fact that the spotlights can be inserted and moved along the track without tools. It is ideal for use in shops whose interior design is continually evolving. In addition, the powerful VARO provides maximum efficiency for the illumination of products. The high-quality reflector from VARO ensures a particularly precise beam characteristic at different angles, all with an excellent colour rendering up to  $\text{CRI} \geq 90$ . Depending on the desired spatial effect, you can choose between the 3000 K and 4000 K light colours.

**DE** Als Stromschienenstrahler fokussiert VARO auf das Wesentliche und ist universell einsetzbar. Er ist in zwei verschiedenen Größen verfügbar und durch 355° Dreh- und 90° Schwenkbarkeit höchst beweglich im Einsatz. Unterstützt wird diese Flexibilität durch werkzeugloses Einsetzen und Verschieben der Strahler in der Stromschiene: ideal für den Einsatz in Shops, deren Innenarchitektur sich immer wieder verändert. Zudem bietet der leistungsstarke VARO höchste Effizienz bei der Beleuchtung von Waren. Der hochwertige Reflektor von VARO sorgt für eine besonders präzise Abstrahlcharakteristik in verschiedenen Winkeln – und das bei sehr guter Farbwiedergabe von bis zu  $\text{CRI} \geq 90$ . Je nach gewünschter Raumwirkung haben Sie die Wahl zwischen den Lichtfarben 3000 K und 4000 K.

# Versatile profile

## MILA system

**EN** The MILA system luminaire was specially designed for use with slat ceilings and blends seamlessly into the respective room concept in entrance halls and office buildings. In meeting rooms and offices, the luminaire creates an ideal, screen-appropriate work light thanks to the optional addition of reflectors. In the opal cover variant, MILA is suitable for homogeneous room illumination; a reduced glare value is achieved with the optional microprismatic cover. For continuous lighting systems, the flexible Continuous Cover is the best choice. By adding special sensors, the MILA system luminaire becomes a smart lighting system. The sensors can be freely placed in the slatted ceiling and quickly integrated at a later stage. The collected room utilisation data helps to save energy over the long term.

**DE** Die MILA Systemleuchte wurde speziell für den Einsatz von Lamellendecken konzipiert und fügt sich in Eingangshallen sowie Bürogebäuden nahtlos in das jeweilige Raumkonzept ein. In Meetingräumen und Büros schafft die Leuchte ein ideales bildschirmtaugliches Arbeitslicht dank der wahlweisen Ergänzung durch Reflektoren. In der Opal-Cover-Variante eignet sich MILA für eine homogene Raumausleuchtung, ein reduzierter Blendwert wird mit der optionalen mikroprismatischen Abdeckung erreicht. Für durchgängige Lichtsysteme ist das flexible Continues Cover die beste Wahl. Durch die Erweiterung mit speziellen Sensoren wird die MILA Systemleuchte zum smarten Beleuchtungssystem. Die Sensoren können in der Lamellendecke frei platziert und nachträglich schnell integriert werden. Die hier gesammelten Daten zur Raumnutzung.

## Advanced sensor technology

**EN** By adding special sensors, the MILA system luminaire becomes a smart lighting system. The sensors can be placed freely and flexibly in the slatted ceiling, and can also be integrated quickly and easily at a later stage. With the ESSENTIAL sensor, the lighting dynamically adapts to the ambient brightness and room activity. In addition, the SENSE sensor measures values for temperature, air quality, humidity, and noise level. These data not only provide important insights into the ambient conditions, but also support energy savings over the long term.

**DE** Durch die Erweiterung mit speziellen Sensoren wird die MILA Systemleuchte zum smarten Beleuchtungssystem. Die Sensoren können in der Lamellendecke frei und flexibel platziert werden und auch nachträglich schnell und einfach integriert werden. Mittels ESSENTIAL Sensor passt sich die Beleuchtung dynamisch an die Umgebungshelligkeit und Raumaktivität an. Ergänzend werden, mit dem SENSE Sensor, Werte zu Temperatur, Luftqualität, Luftfeuchtigkeit und Geräuschpegel gemessen. Diese Daten liefern nicht nur wichtige Erkenntnisse über die Umgebungsbedingungen, sondern unterstützen langfristig Energieeinsparungen.

## Continuous Cover

**EN** Both the opal and the microprismatic cover are available as continuous versions for the MILA system luminaires. This results in remarkable flexibility, as the length of the cover can be adapted exactly to the system. During installation, the Continuous Cover is simply integrated into the profile, avoiding interfering joints, and creating a pleasantly continuous lighting system.

**DE** Sowohl das opale als auch das mikroprismatische Cover stehen für die MILA Systemleuchten als Continuous Version zur Verfügung. Dadurch ergibt sich eine besondere Flexibilität, denn die Länge des Covers kann exakt an das System angepasst werden. Bei der Montage wird das Continuous Cover einfach in das Profil integriert, wodurch störende Stoßstellen vermieden werden und ein angenehm durchgehendes Lichtsystem entsteht.

## Inset variety

**EN** Whether workplace lighting or general building areas – the MILA system luminaire can be adapted depending on the area of application. For screen-appropriate task lighting, the  $UGR \leq 19$  glare-reduced reflectors are the right choice. The optionally available opal cover is suitable for homogeneous ambient illumination. The microprismatics with reduced glare value are ideal for pleasantly illuminating entrance areas and corridors.

**DE** Ob Arbeitsplatzbeleuchtung oder allgemeine Gebäudebereiche – die MILA Systemleuchte lässt sich je nach Einsatzgebiet variieren. Für die bildschirmtaugliche Arbeitsplatzbeleuchtung sind die  $UGR \leq 19$  entblendeten Reflektoren die richtige Wahl. Das wahlweise erhältliche Opal-Cover ist für eine homogene Grundausleuchtung geeignet. Die Mikroprismatik mit reduziertem Blendwert ist ideal, um Eingangsbereiche und Gänge angenehm zu beleuchten.

**MILA reflector**

**MILA opal**

**MILA microprismatic**

## Mounting

**EN** MILA can provide the right lighting in any room via sturdy mounting brackets that are hooked into the slatted ceiling. The brackets can be flexibly moved along the luminaire and can thus be positioned as required, or subsequently adjusted. Converters with wiring-through function facilitate electrical installation, as wiring can thus be carried out easily and quickly from one luminaire to another. In addition, the free movement of the converter allows a flexible response to ceiling conditions.

**DE** Über stabile Befestigungsklammern, welche an der Lamellendecke eingehängt werden, kann MILA in jedem Raum für die passende Beleuchtung sorgen. Die Klammern sind entlang der Leuchte flexibel verschiebbar und können so bedarfsorientiert platziert oder nachträglich angepasst werden. Konverter mit through wiring Funktion erleichtern die elektrische Montage, da die Verdrahtung so einfach und schnell von Leuchte zu Leuchte durchgeführt werden kann. Außerdem kann durch die freie Verschiebbarkeit des Converters flexibel auf die Deckengegebenheiten reagiert werden.

**HAUFE**  
DECKENSYSTEME

## MILA system

ceiling

**EN** Luminaire housing from extruded aluminium profile, angular design; designed for continuous lighting systems; suitable for installation in the HAUFE louvre ceiling system; surface powder coated; HPO (High Performance Opal) cover or microprismatic cover in the length of the light inset or continuous cover (both separately available); optional high gloss reflector with faceted design; converter flexible positionable on the luminaire profile; converter suitable for through-wiring; energy-efficient LEDs with very good colour rendering; optionally sensor inset (ESSENTIAL or SENSE) available as accessory

**DE** Leuchtenkörper aus Aluminiumstrangpressprofil, kantige Ausführung; ausgelegt für durchgehende Lichtsysteme; geeignet für den Einbau in das HAUFE Lamellendeckensystem; Oberfläche pulverbeschichtet; HPO (High Performance Opal) Abdeckung oder mikroprismatische Abdeckung in Lichteinsatzlänge oder durchgängige Abdeckung (beide separat zu bestellen); optional hochglänzender Reflektor mit Facettenoptik; Konverter flexibel am Leuchtenprofil positionierbar; Konverter für Weiterverdrahtung geeignet; energieeffiziente LEDs mit sehr guter Farbwiedergabe; wahlweise Sensor-Einsatz (ESSENTIAL oder SENSE) als Zubehör erhältlich

# Spotlight your profile

## FRAME / MINO 40 system

**EN** The FRAME 40 and MINO 40 system luminaires set no limits on profile-based ambient lighting. Thanks to special Flex Insets, the system luminaires can be shortened on-site and thus adapted to all conditions. Corner connectors create continuous lighting systems. For particularly uniform room illumination, the profile luminaires are fitted with an opal cover. In addition, spotlight insets can be selected for elegant accent lighting in corridors or entrance areas. Select a light colour of 3000K, 4000K, or optionally Tunable White, and a colour rendering of up to  $\text{CRI} \geq 98$  (XPECTRUM).

**DE** Mit der FRAME 40 und MINO 40 Systemleuchte sind Ihnen in puncto profilbasierter Grundausleuchtung keine Grenzen gesetzt. Aufgrund spezieller Flex-Insets können die Systemleuchten vor Ort gekürzt und somit an alle Gegebenheiten angepasst werden. Durch Eckverbinder entstehen so durchgängige Lichtsysteme. Für eine besonders einheitliche Raumausleuchtung wurden die Profilleuchten mit einer Opal-Abdeckung ausgestattet. Zusätzlich können Spots Insets zur eleganten Akzentuierung in Gängen oder Eingangsbereichen gewählt werden. Die Lichtfarbe ist aus 3000K, 4000K und wahlweise Tunable White und einer Farbwiedergabe von bis zu  $\text{CRI} \geq 98$  (XPECTRUM) wählbar.

## Easy Mounting

**EN** MINO 40/FRAME 40 is based on a profile with an integrated track, which makes only one power feed point necessary.

(1) Two profiles are connected to each other with mechanical and electrical connectors.

(2) The patent-pending snap-in system allows the inset to be quickly and easily mounted in the profile. This simplifies the installation and maintenance of the system.

(3) The flexible Continuous Cover can be adjusted exactly to the length of the system and simply installed in the profile during mounting. This creates a continuous lighting system without disturbing joints.

**DE** MINO 40/FRAME 40 basiert auf einem Profil mit integrierter Stromschiene, wodurch lediglich eine Einspeisungsstelle benötigt wird.

(1) Mittels mechanischen und elektrischen Steckverbindern werden zwei Profile einfach miteinander verbunden.

(2) Durch das, zum Patent angemeldete, Snap-In System lässt sich das Inset schnell und unkompliziert in das Profil einsetzen. Dies vereinfacht die Montage und Wartung des Systems.

(3) Das flexible Continuous Cover kann exakt auf die Länge des Systems angepasst und einfach bei der Montage in das Profil eingebaut werden. Dadurch entsteht ein durchgängiges Lichtsystem ohne störende Stoßstellen.

## Full-spectrum LED

**EN** XAL's new XPECTRUM LEDs deliver healthy, biologically effective light. The reduced blue light component and increased cyan values reduce the blue light hazard for the eye to daylight-equivalent levels. The resulting non-visual, so-called melanopic light effect, improves concentration and increases sleep quality. The excellent colour rendering of IES TM 30-15  $R_f=98$  and  $R_g=101$  further helps visual comfort.

**DE** Die neue XPECTRUM LED von XAL sorgt für gesundes, biologisch wirksames Licht. Der reduzierte Blaulichtanteil sowie die erhöhten Cyan-Werte minimieren die Blaulichtgefahr für das Auge auf ein tageslichtähnliches Niveau. Die daraus resultierende nichtvisuelle, auch melanopische Lichtwirkung genannt, fördert die Konzentration und steigert die Schlafqualität. Die hervorragende Farbwiedergabe von IES TM 30-15  $R_f=98$  und  $R_g=101$  ermöglicht zudem einen verbesserten Sehkomfort.

### XPECTRUM LED

### Commercially available LED 4000 K

## Precise planning with flex insets

**EN** Your lighting system can be easily adapted to existing room dimensions. You can determine bespoke lengths for MINO 40 / FRAME 40. The special flex insets are precisely and flexibly adapted on-site during assembly. Boards are simply cut off at prefabricated break-points. These are positioned at 62.5mm or 125mm, depending on the length of the profile. This gives you a free hand and minimal restrictions in the lighting design.

**DE** Ihr Lichtsystem lässt sich einfach an vorhandene Raumdimensionen anpassen. Für MINO 40 / FRAME 40 können Sie individuelle Längen bestimmen. Die speziellen Flex-Insets werden vor Ort bei der Montage exakt und flexibel angepasst: Platinen werden einfach an vorgefertigten Bruchstellen abgetrennt. Diese befinden sich je nach Länge des Profils bei 62,5mm oder 125mm. Dadurch haben Sie freie Hand und kaum Einschränkungen bei der Lichtplanung.

## Spot Insets

**EN** Elegant room accentuation and reduced design: with the new Spot Insets, the system luminaires become convertible luminaires for stylish wall, floor, and ceiling accentuation. In addition, the Wallwasher Floor light inset is perfect for uniform illumination of a blackboard in the classroom, or a corridor. The tool-free installation of the insets is completed in one move, the spotlights can be simply unlocked and snapped into place.

**DE** Elegante Raumakzentuierung und reduziertes Design: Mit den neuen Spot Insets werden die Systemleuchten zu wandelbaren Leuchten für eine stilvolle Wand-, Boden- und Deckenakzentuierung. Zudem eignet sich der Wallwasher Floor Lichteinsatz perfekt für eine gleichmäßige Ausleuchtung einer Tafel im Klassenzimmer oder eines Korridors. Die werkzeuglose Montage der Insets erfolgt durch einen Handgriff, die Strahler können einfach entriegelt und eingearastet werden.

## FRAME 40 system

recessed with trim

**EN** Luminaire housing made of extruded aluminium; recessed luminaire with trim; designed for continuous lighting systems; suitable for ceiling thickness of 8-25 mm; surface powder coated; luminaire profile for mounting available in advance; remaining luminaire components mounted without tools; HPO (High Performance Opal) cover in the length of the light inset or continuous cover (both separately available); pre-assembled power rail for power supply in luminaire profile; voltage tap of the light inset on the power rail; light inset consisting of highly reflective coated extruded profile for improved thermal management; energy-efficient LEDs with very good colour rendering; optionally spotlight modules can be installed

**DE** Leuchtenkörper aus Aluminiumstrangpressprofil; Einbauleuchte mit umlaufendem Rand; ausgelegt für durchgehende Lichtsysteme; geeignet für Deckenstärken von 8-25 mm; Oberfläche pulverbeschichtet; Leuchtenprofil für Montage vorab lieferbar; restliche Leuchtenkomponenten werkzeuglos montierbar; HPO (High Performance Opal) Abdeckung in Lichteinsatzlänge oder durchgängige Abdeckung (beide separat zu bestellen); vormontierte Stromschiene zur Spannungsversorgung im Leuchtenprofil; Lichteinsatz-Spannungsabgriff an der Stromschiene; Lichteinsatz bestehend aus hochreflektierend lackiertem Strangpressprofil für verbessertes Thermomanagement; energieeffiziente LEDs mit sehr guter Farbwiedergabe; wahlweise Strahlereinsätze einsetzbar

LUMINOUS FLUX value calculated for 4000K, CRI ≥ 90, colour white, cover opal 3000K -5%

## SPOTLIGHT insets

profiles 40

**EN** Cylindrical spotlight made of aluminium; powder coated; spotlight can be installed without tools in MINO 40 system or FRAME 40 system; choice of single lamp or double lamps; spotlight head rotatable (WALLWASHER/FLOOR) or rotatable and tiltable (SPOTLIGHT); converter in the adapter; with optional high quality lens system with precise radiation characteristic; or high quality, aluminium, vapour deposition coated reflector with faceted design; precise radiation characteristics with different beam angles; optional asym. light distribution; good glare reduction due to recessed light point plane; optical attachments as accessories; COB (Chip on Board) technology or high power LEDs - maximum efficiency; no multiple shadows; energy-eff. LEDs - very good colour rendering

**DE** Zylindrischer Strahler aus Aluminium; pulverbeschichtet; Strahler in MINO 40 system oder FRAME 40 system werkzeuglos einsetzbar; wahlweise einflamig oder zweiflamig; Strahlerkopf drehbar (WALLWASHER/FLOOR) bzw. dreh- und schwenkbar (SPOTLIGHT); Konverter im Adapter; wahlweise mit hochwertiger Linsenoptik mit präziser Abstrahlcharakteristik; oder hochwertiger, aluminiumbedampfter Reflektor mit Facettenoptik; präzise Abstrahlcharakteristik mit verschiedenen Ausstrahlwinkeln; optional asym. Lichtverteilung; gute Entblendung durch zurückversetzte Lichtpunktebene; optische Aufsätze als Zubehör; COB (Chip on Board) Technologie bzw. High-Power-LEDs - höchste Effizienz; keine Mehrfachschatten; energieeff. LEDs - sehr gute Farbwiedergabe
