

TASK direct / indirect asymmetric power free standing double

Instructions for the lighting configuration of a **TASK** direct / indirect asymmetric power free standing double

- 1 Use the provided photometric file from the website
Attention: you get the single photometric file (cyan lines in drawing)
- 2 create a box (**blue** lines in drawing) with 630x30x15 mm and set your luminaire with single photometric files
Copy single photometric files and mirror horizontally.
