A polar plot showing the angular distribution of light intensity. The plot is circular with concentric circles representing intensity levels. The outermost circle is labeled '15250 cd'. Radial lines are drawn at 30-degree intervals, labeled from 0° to 180°. A vertical blue line is drawn along the 0° axis, extending from the center to the outermost circle. A legend at the bottom left shows a blue line segment followed by the text 'C0/C180'.
