A C0/C180 diagram showing a blue curve that peaks at 180 degrees. The diagram is a polar plot with concentric circles representing luminance in cd. The radial scale is marked at 1500 cd. The angular scale is marked from 0° to 180° in 30° increments. The blue curve starts at approximately 1000 cd at 0°, rises to a peak of about 1500 cd at 180°, and returns to approximately 1000 cd at 360°.
