A linear spotlight

Product: w181 Linier

> At first glance, the w181 Linier resembles a linear pendant lamp. However, a closer look at its geometrically strict body reveals that there's more to it than meets the eye.

6 w181 Linier Features

#### w181 Linier

#### Precisely defined light

A series of 256 deep-recessed individual optical systems, packed ultra-tight, provides a crisp directed light.

## A choice of three colour temperatures

Depending on your particular needs, w181 Linier is available in three different colour temperatures – 2700 K, 3000 K or 4000 K.

2700 K 3000 K 4000 K

#### Glare-free light

Separate anti-glare compartments guarantee a comfortable, glare-free light with a low UGR (unified glare rating).

#### Precise engineering

A lot of effort has been put into the precision engineering of w181 Linier's sleek black aluminium body. For example, w181 Linier is suspended at its Bessel points to create perfect balance and stability in relation to its long, slender proportions.

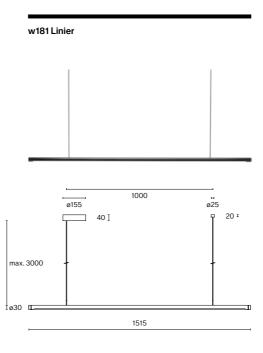

## Versatile, integrated dimming

For a smoother user experience, w181 Linier is available with integrated dimming wheels at both ends; each can be turned independently to set the desired light level, allowing for optimal adaptability.

10 w181 Linier pro Features

#### w181 Linier pro

#### High efficacy

w181 Linier Pro features integrated microlenses that deliver the same sharp, focused illumination as the standard version, but with an enhanced level of efficacy (136 lm/W).

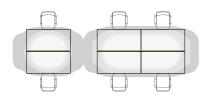

#### Workplace light

Separate anti-glare compartments guarantee a comfortable, glare-free light with UGR ≤ 19 (unified glare rating) and candela/m<sup>2</sup> ≤ 3000. w181 Linier pro complies with the DIN EN 12464-1 standard.
